

How Novatia will work as your ICT Partner for Schools' construction

Acting as ICT Consultant, we support you through the whole design and build process from bidding, through pre-construction, construction, and handover. We bring our experience of working on over 100 DfE school build projects to design and deliver high-quality, DfE compliant ICT Solutions.

LOCAL COMPETITION

RIBA 2

Work with your Design Team, the School and DfE through both the PITT and ITT phases. As well as supporting you with Client Engagement Meetings (CEMs) and your ITT submission of concept design strategies.

DESIGN DEVELOPMENT

RIBA 3

Through our proven experience, we will assist you in the competitive situation to secure the project through collaboration with you, the architect, and FF&E Advisor as well as further CEMs. We will plan the ICT integration, location of the server & hub room and support you in producing all the Design Development Deliverables, getting you ready for planning submission.

CONTRACTORS PROPOSALS

RIBA 4

Our experienced team will lead all ICT design engagements with your Design Team, the School and DfE during the Contractors Proposal stage to reach an agreement and provide required documentation.

CONSTRUCTION

RIBA 5

Fully deliver the ICT solution e.g. network, decant, supply of new ICT equipment, etc. Provide ongoing coordination to ensure that the ICT installation is as per the design, including liaison with the school, their ICT provider, and your construction team.

HANDOVER & DEFECTS LIABILITY PERIOD

RIBA 6

Produce all high-quality ICT O&M Manuals and other handover documentation. Review and approve that installation was as per the design to cover the defects liability period.
